

IMPROVING RELIABILITY

Notice of Temporary Traffic Control
Maintenance of Utilities
February 20th – February 24th
8:00 PM – 4:00 AM

[customer address]

Location and Limits to Affected Areas:

- Clavey Rd from Green Bay going West to IL 41
- Larkspur Ln, Aspen Ln, Clavey Ln Highland Park IL

What to expect:

ComEd's contractor, Electric Conduit Construction will be installing new aerial fiber cable and other associated equipment designed to improve Highland Park's distribution system. There will be trucks and equipment present during the above date and time. Every attempt will be made to accommodate residents' movement. Work area signs will be posted, and appropriate traffic control and no parking signs (if necessary) will be in place 48 hours prior to start of work. This work will be performed along the roadway and within designated utility easement.

Restoring your property:

ComEd expects this work to cause minimal disruption to any customer property. In the unlikely event that we do cause any damage, we will return once the work has been completed and restore the landscaping around the installations.

If you have questions or require additional information on this project, please contact ComEd's Project Support Team at (630) 576-6200.
